

Dear, Mr Proctor

First of all I just want to say Thank you for what your doing for us Lwop. We all are really hoping and praying that something will happen this year. So many of us are waiting patiently and are working really hard to just be given a chance to see the board to show our growth and how we changed. Pertain to the questions at hand.

The sentence of Lwop has taken all hope frome me, just waking up and knowing that your never getting out of prison is devastating, it slowly drains the hope and life out of us.

It's like being buried alive. The most painful thing is knowing that hope of going home is so slim and yet we still try for our family and loved ones. The sentence affected my family greatly, they have been doing my time with me since day one knowing that I was sentence to a slow agonizing death and never gonna get out. My family was sentence with me.

The only unfair unjust I felt is the law, it seems like it was made for us minority poor members of society, for those of us who had victimized and traumatic background, who grew up in the system never had a fighting chance. As we all know the California prison system is 90% minority, people of colors.

The other thing is lifers are given the chance now to go to the board for a youth hearing, and I would like to see that for us Lwop and youth death penalty inmate also. Not to be release just a chance to show our growth and change. To be given the same chance as a Youth lifer,

The changes I would like to see happen is a second chance, a little hope for those who have change, for those who came in the system as teen and young adults, who are now men's, fathers and grandfathers who just wants to get back to their families. The ones that are rehabilitated and learn from what they did, and has change.

I would like law makers to know that as humans we make mistakes and we learn, many of us have change, decision making, values to morals and beliefs. Everyone was young once and makes stupid decisions that impact so many lives, anyone with a son or daughter please have mercy on Lwop and death penalty youth. There are some of us that been down since 18, 19, 20, we can't even buy beer but can be ship off to war or sentence to death.

I would like to see changes, just please consider the fact that people do change and grow. I would like Law makers to give youth Lwop and Death penalty a chance to show growth and see the BPH. Just a little hope for the young and youth. For the first time in many years I see so much hope come alive in so many Lwop. I just want to say, Thank you!

Sincerely: Bee Vne F72547

Thank you again!
